

## Local Walks from the Storrington and Sullington Community Partnership

### Short Downsland Walk

**Length: 1.45 hrs, 4.5 km. 3 miles approximately.**

1. From the Library car park, please check the parking restrictions on the board before you set off, turn left into North Street to reach the High Street. Cross the High Street and into White Horse car park, then turn right into marked footpath through residential houses. Continuing up the public footpath turn left onto Browns Lane and continue until you reach a twitten (cut-through) on right just before No. 20. Pass allotments on right and continue along footpath, following the sign pointing across fields. Follow this path behind the houses. Take gate through to permissive access route and follow diagonal path across field. The South Downs are now straight ahead.

2. Climb over the stile and continue diagonally across field – keep heading for the far left corner. Here cross another stile into Chantry Lane, turn right up lane.
3. You will come to Waterfall cottage – aptly named with its roadside mini waterfall. Take the footpath behind the cottage, which leads through a small wood and then onto open fields.
4. Head east to Sullington Manor Farm. Walk past the church and follow the road past the farm buildings heading downhill.

Turn left on concrete road, then take the footpath on your right down the hill on the farm track with a cow yard on your left. Head right downhill through the narrow strip of field.

5. At the gate follow the public footpath sign across the field, the small woods on your right, keep to the edge of the field until you reach a further signpost. Then turn left along field and keep boundary hedge on your right.
6. On reaching the oak tree at corner of the field follow the footpath arrow turning right and still keeping the hedge on your right. Cross the bridge into woodland and continue on woodland path, passing Chantry Mill pond on the left. Cross the road and pick up the footpath straight ahead (ignore public footpath sign to the left), passing a children's playground.

7. On reaching the road bear right and continue to the junction at Washington Road. Turn left downhill into Storrington village and cross the main road at the pedestrian crossing. Turn right and then left into Old Mill Drive, finally crossing the bridge back into the Library Car Park.
